Drum

New double-column frame drum truck with kickstand is much sturdier than single-column frame trucks. Drums and barrels are securely positioned between the full length 1-5/16" frame uprights. Simple adjustable chime hook easily fits most 30 and 55 gallon steel and fiber containers. High capacity rubber mold-on 10" x 2-1/2" wheels make moving heavy drums much easier. Rear footbar is used to help in breaking over heavy loads.

Item #	Load Capacity	Ship Weight	Handle Height	Frame Width	Nose Width	Drum Size
--------	---------------	-------------	---------------	-------------	------------	-----------
