Stackable Chair

This hardwood dolly not only transports up to 12 stackable chairs but can be used for long-term storage. The chair dolly is fully machined on CNC equipment with rounded corners and a convenient slotted hand hole for easy carrying. This dolly rolls easily on 4 double-ball raceway swivel casters with non-marking 2½” polyolefin wheels. Protective polyurethane rounded corner bumpers protect doorways and walls, as well as helping to secure stacked chairs. Dolly is 23½” wide x 23½” long x 4” high and will accommodate chairs with a width of 16” to 23” and a depth of 23”. Applications include auditoriums, schools, churches, banquet halls and meeting centers.
